OcuTrap R Series · Operation Cheat Sheet

Buttons, LEDs & device states — keep near the trap.

First time setting up? Follow the **Quick Start Guide** in the box for battery, assembly, and app pairing. This cheat sheet is for day-to-day operation.

Battery (XT30): 5200 mAh — male XT30, **1A** charger. 10,000 mAh (111 Wh) — female XT30, **2A** charger. Genders are opposite—do not force. Need the other pack? Email **support@ocutrap.com** for PCB/holder swap.

SYSTEM LED (TOP OF POD)

Pattern	Meaning
Breathing cyan	Connected to cloud — operational.
Fast blinking cyan	Connecting to the cloud.
Blinking green	Searching for cellular signal.
Blinking magenta	Firmware update in progress.
Rapid red blinking	Power button held: turning off. Let go within 3 s to cancel.
Red SOS flashes	Firmware crash. The trap restarts by itself. Contact support if it repeats.
Solid red at power-on	Battery too low to start. Charge, then press Power.
No light	Off or hibernating. Press Power to wake.

BUTTONS & CONTROLS

Action	How	Result
Arm	User Button, then Power Button	Door must be set open
Unarm	User Button, then Power Button	From armed state
Open door	User Button, release, then hold 5s	Blue flashes
Close door	User Button, release, then hold 5s	Green flashes
Power off	Hold Power Button 3s	Red blink → solid red → off
Reset	Press Reset once	Reboots; state preserved

SAFETY

- Keep fingers clear of the door and motor at all times.
- Power off and disconnect the battery before any maintenance.
- Wear gloves when approaching a captured animal.
- Do not submerge. Avoid freezing conditions (door may stick).
- Use only the supplied charger (1A or 2A—match your pack).
